

# Loop Plate with Tap Mechanism 18dB

## 05MM-LP18

The 05MM-LP18 is ideally suited for AV projects with re-cabling of a complex nature. For such jobs, you'll need an input/output plate that can handle a good deal of power and drop it down to acceptable levels. This unit can do just that, dropping power levels with a 18dB tap loss while distributing reception to multiple outlets.

### Features and Benefits

- » Ideal for building upgrades that require complex recabling
- » 18dB tap loss
- » Includes one outlet plate insert
- » Used to distribute TV reception across multiple outlets
- » Also suitable for most Clipsal® outlet plates

### 05MM-LP18 Specifications
