

Quad Input IP Streamer (DVBT/T2/C) 14MM-STI440

Features and Benefits

- » Quad input DVB-T/T2 or C to IP Streamer supporting SPTS or MPTS IP output
- » Connects seamlessly with 22MM-TERRA-IP-STB using SAP protocol
- » Regeneration of information contained in the MPEG-2 tables
- » UDP and RTP transmission protocols
- » SDP/SAP protocol support
- » Web control and SNMP agent

TERRA

14MM-STI440 Specifications

Number of channels	4
RF input	COFDM / QAM
Frequency range	47-862 MHz
AGC range/impedance	45-80 dB μ V / 75 Ω
DC output for preamplifier	12 V 100 mA
IP output	
Standard	IEE802.3 100/1000 Base T
Bit rate	up to 200 Mbps
Transmission protocols	UDP/RTP
Multicast	Yes
MPTS	Yes
SPTS	Yes
Control port	Standard IEE802.3 10/100 Base T
Current consumption*	12 V 0.5 A
Operating temperature range	0° + +50°C
Dimensions/Weight (packed)	36x198x112 mm/0.84 kg

* without external DC feeding
