

Distribution Amplifier 45dB UHF/VHF Terrestrial With Internal Power Supply 14MM-TA242

For the Best

Features and Benefits

- » Separate gain controls for band 1 & FM, band 3 & UHF
- » Metal casing for excellent heat dissipation
- » Switchable inputs for UHF & VHF or combination TV antenna
- » Test points - 30dB
- » Includes power supply

14MM-TA242 Specifications

Number of Inputs	2
Frequency Range	47-144MHz, 175-230MHz, 470-862MHz
Number of Outputs	1
Amplification	BI + FM, B III I, UHF
Gain	35/35/45dB
Gain Adjust	20dB
Output Level (42Ch)	108dBµV
Noise Figure	<8dB
Mains Voltage	240V
Test Points	Out -30dB
