

Telstra 3G/4G Mobile Phone Signal Repeater Kit For a Home or Small Building 56MM-CFBK-1

For the Best

The CFBK-1 is a Telstra Cel-Fi Go Stationary home/building kit to provide mobile signal amplification in indoor and outdoor low reception areas. The kit comprises a Telstra Cel-Fi Go Stationary, high gain outdoor antenna, ceiling mount Omni-directional indoor antenna and pre-terminated leads to connect a system. As a result, you will no longer need to move to a particular spot to receive and make phone calls. In addition, the Cel-Fi Go repeater covers both 3G and 4G signals for mobile calls and data, allowing you to increase your data rate for uninterrupted browsing and streaming provided an adequate signal from the external antenna.

Features and Benefits

- » A complete home or small building kit for Telstra mobile
- » Boost your mobile signal with up to 100dB of gain
- » Approved by Telstra and is locked to Telstra network
- » Use with Cel-Fi WAVE applications for mobile phones and tablets plus PC for easy setup
- » Band selection button for quickly selecting best signal available
- » Easy plug and play setup
