

N Socket Cap - 17mm Length with Security Chain 56MM-NSC17

The NSC17 is a 17mm N-type socket cap used to cap off unused terminations to prevent dust and moisture from getting into the connector and causing damage to your networks. Features a fastening chain to secure to the termination point to avoid dropping or loss when disconnected.

Features and Benefits

- » 17mm cap used to seal off unused N socket points to keep protected for dust and moisture
- » Security chain to prevent loss or dropping of disconnected cap
- » Standard 5/8-24 UNEF-2A thread
- » Ideal for capping off bulkhead mounted terminations
- » Brass body with nickel plating
- » ≥ 500 cycle durability
